

Systar's OmniVision Now Certified as Ready for IBM Power Systems Software

ST. CLOUD, France and Vienna, VA, June 10, 2010 - Systar (ISIN: FR0000052854-SAR), a leading provider of performance management software, today announced that OmniVision, its award-winning capacity management software, is certified as Ready for IBM® Power Systems™ Software.

OmniVision delivers proactive capacity and performance management across virtual and physical server environments to reduce infrastructure costs while improving quality of service. Its action-ready analyses and automated reports allow organizations to reach the full potential of server virtualization and cloud computing.

OmniVision has a proven track record in PowerVM™ virtualization environments, delivering clear insight into capacity utilization and quality of service, while providing root-cause analysis of incidents. This Ready for IBM Power Systems Software certification formally validates the deployment of OmniVision Collectors inside critical IBM Virtual I/O Server (VIOS) partitions as fully compliant with IBM standards. VIOS is a specialized partition that provides virtual I/O resources to client partitions.

"We are pleased that OmniVision has earned Ready for IBM Power Systems Software certification," said Bertrand Bouhour, president of Systar, Inc. "This reflects Systar's commitment to delivering robust solutions that enable our customers to maximize the value of their PowerVM virtualization environments."

About Systar:

Over 180 clients worldwide, including 10 of the world's 15 largest banks, rely on Systar's performance management software to maximize the efficiency of their business operations and IT infrastructure. Systar is widely regarded as the leading provider of Business Activity Monitoring (BAM) solutions and offers innovative capacity management software for both physical and virtual server environments. Systar is listed on the NYSE Euronext Paris Stock Exchange (ISIN: FR0000052854-SAR), and has offices in North America and Europe. More information about Systar is available at www.systar.com
